

GRE Math Bible

By Jeff Kolby, Derrick Vaughn

GRE Math Bible By Jeff Kolby, Derrick Vaughn

Comprehensive Prep for GRE Math

Every year, students pay \$1,000 and more to test prep companies to prepare for the math section of the GRE. Now you can get the same preparation in a book.

Although the GRE math section is difficult, it is very learnable. *GRE Math Bible* presents a thorough analysis of GRE math and introduces numerous analytic techniques that will help you immensely, not only on the GRE but in graduate school as well.

Features:

Comprehensive Review: Twenty-three chapters provide the most thorough review of GRE math available.

Practice: Includes 164 examples and more than 600 exercises! Arranged from easy to medium to hard to very hard.

Diagnostic Test: The diagnostic test measures your strengths and weaknesses and directs you to areas you need to study more.

Duals: These are pairs of similar problems in which only one property is different. They illustrate the process of creating GRE questions.

If your target is a 700+ score, this is the book.

Please note that some students preparing for the GMAT have been buying the *GRE Math Bible*. We are pleased to announce that we publish two books expressly for the GMAT math section: *GMAT Math Prep Course* and *GMAT Data Sufficiency Prep Course*, both available here at Amazon.

Editorial Review

Review

I bought Nova's GRE Math Bible, I think the book is all you need for getting 800 on quant. BUT you have to make sure you understand everything in the book, it is very detailed and has more than enough practice at all levels to grill you on. --A Student

I have used the Nova book as suggested by several members of this forum. It is very comprehensive and has a section dedicated to permutations and combinations. I would rate Nova's GRE Math Bible as the best followed by Barrons. --youeven I went through the whole Nova Math Bible book and found it pretty good, much more comprehensive than Barrons. I would say and it covers permutations and combinations thoroughly. --A student I highly recommend though the Nova Math Bible, way better book, with really good examples and explanations. --A student

This is a great book to get more tricks and knowledge for the quantitative part of the GRE. It has hundreds of exercises of several types, it is well-written and reviews in detail every subject tested in quantitative GRE. Finally, it has a good, thorough diagnosis test. In summary, if you have a book for general preparation (like the ones sold by Kaplan) and you really need to have a high quantitative score (for those who want to attend courses like computer sciences, physics or economics), this one will be a great complement! --Guilherme Oliveira

Users Review

From reader reviews:

Agustin Thornsberry:

What do you ponder on book? It is just for students because they are still students or the item for all people in the world, exactly what the best subject for that? Just simply you can be answered for that concern above. Every person has distinct personality and hobby per other. Don't to be pressured someone or something that they don't would like do that. You must know how great along with important the book GRE Math Bible. All type of book can you see on many methods. You can look for the internet solutions or other social media.

James Peters:

What do you regarding book? It is not important to you? Or just adding material when you want something to explain what your own problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to perform others business, it is make you feel bored faster. And you have extra time? What did you do? Every individual has many questions above. The doctor has to answer that question since just their can do in which. It said that about publication. Book is familiar in each person. Yes, it is appropriate. Because start from on jardín de infancia until university need this specific GRE Math Bible to read.

Lorenzo McAvoy:

In this 21st centuries, people become competitive in each way. By being competitive right now, people have do something to make all of them survives, being in the middle of typically the crowded place and notice by means of surrounding. One thing that often many people have underestimated it for a while is reading. Yeah, by reading a guide your ability to survive raise then having chance to stand up than other is high. In your case who want to start reading some sort of book, we give you this GRE Math Bible book as beginner and daily reading book. Why, because this book is more than just a book.

Evelyn Montgomery:

Are you kind of active person, only have 10 or 15 minute in your time to upgrading your mind expertise or thinking skill perhaps analytical thinking? Then you are receiving problem with the book when compared with can satisfy your limited time to read it because all this time you only find e-book that need more time to be examine. GRE Math Bible can be your answer given it can be read by a person who have those short time problems.
