The Care and Feeding of Indigo Children By Doreen Virtue

Indigo children are bright, intuitive, strong-willed, and sometimes self-destructive individuals. They are often labeled (and misdiagnosed) as having ADD or ADHD because they won't comply with established rules and patterns; and they may exhibit behavioral problems at home and at school. In *The Care and Feeding of Indigo Children*, Doreen Virtue, Ph.D., explores the psyche of these special kids and offers alternative solutions to Ritalin based on her extensive research and interviews with child-care experts, teachers, parents, and the Indigo Children themselves. Read the accounts of these remarkable children as they explain why they act-out, are aggressive or withdrawn; and what they want from the adults in their lives. You'll also be fascinated by the psychic experiences that these kids have had in their lives so far. This is a groundbreaking book that can positively affect the ways in which you interact with your child, altering the shape of their future in miraculous ways.
