**On Geopolitics: Space, Place, and International Relations (On Politics)** By Harvey Starr

On Geopolitics shows how the 'new geopolitics' combines the fields of geography and international relations to create a comprehensive overview of current political developments. Using recent developments in geographical technology as well as traditional theories and methods, Harvey Starr explores themes of spatiality and territoriality as they connect to international affairs. He also examines geopolitical dynamics beyond borders in a world now buffeted by non state actors and subject to intergovernmental institutions and norms. On Geopolitics is a brilliant synthesis of Starr's ongoing work on conflict and cooperation, alliances, opportunity, and willingness, within a geographic framework. At the same time, Starr points the way toward new tools and techniques for the study of globalisation and world politics.

### Editorial Review

#### Review

“For those who want to know what the field of geography has to offer international relations, this is the place to come. Starr provides a penetrating overview of geopolitics?its concepts, research, new techniques (like GIS), and future prospects?a book not to be missed.”

?John A. Vasquez, University of Illinois at Urbana-Champaign

“General readers, students, and researchers will appreciate this concise review of the major research streams relating to geopolitics. Despite the de-territorialization of politics, Starr makes the case that ‘place’ still has a major role in understanding international relations.”

?Beth Simmons, Harvard University

“The first attempt by a political scientist to seriously engage with the core concerns of geography by going beyond the usual focus on space and distance to consider the character of places as well as . . . the ‘context of politics,’ a recent theoretical concern of geographers. The book discusses both macro-geopolitics and micro-geopolitics, and correctly rejects the notion of a ‘borderless world’ to offer a much more nuanced approach to the study of borders and territory.”

?John O’Loughlin, University of Colorado at Boulder

“A quite innovative and very useful text that should reanimate some neglected debates within the field.”

?Timothy W. Luke, Virginia Polytechnic Institute and State University

“An excellent introduction to the importance of geography in the study of international relations. Starr reviews an extensive range of existing research in both geography and political science and provides specific examples of its applications to issues such as alliances, borders, and territorial conflict.”

?Kristian Skrede Gleditsch, University of Essex

#### About the Author

**Harvey Starr** is the Dag Hammarskjöld Professor in International Affairs in the Department of Political Science at the University of South Carolina. A leading authority on the study of conflict, geopolitics, and diffusion, Professor Starr is author or co-author of 15 books and monographs, and more than 90 journal articles and book chapters, including *World Politics: The Menu for Choice*, now in its 10th edition. He has served as President of the Conflict Processes Section of the APSA, as Vice President of the APSA, as President of the Peace Science Society (International), and as Vice President and President of the International Studies Association.

### Users Review

#### From reader reviews:

#### Eleonora Plunkett:

The book On Geopolitics: Space, Place, and International Relations (On Politics) can give more knowledge and information about everything you want. So why must we leave the great thing like a book On Geopolitics: Space, Place, and International Relations (On Politics)? Several of you have a different opinion

about guide. But one aim that book can give many information for us. It is absolutely right. Right now, try to closer using your book. Knowledge or information that you take for that, you could give for each other; you could share all of these. Book On Geopolitics: Space, Place, and International Relations (On Politics) has simple shape however, you know: it has great and large function for you. You can search the enormous world by wide open and read a book. So it is very wonderful.

### **Shawn Hodgin:**

Precisely why? Because this On Geopolitics: Space, Place, and International Relations (On Politics) is an unordinary book that the inside of the publication waiting for you to snap it but latter it will distress you with the secret this inside. Reading this book beside it was fantastic author who also write the book in such remarkable way makes the content within easier to understand, entertaining technique but still convey the meaning fully. So , it is good for you for not hesitating having this ever again or you going to regret it. This phenomenal book will give you a lot of gains than the other book include such as help improving your talent and your critical thinking means. So , still want to hesitate having that book? If I were being you I will go to the publication store hurriedly.

### **Carol Ray:**

Do you like reading a guide? Confuse to looking for your selected book? Or your book has been rare? Why so many query for the book? But any kind of people feel that they enjoy intended for reading. Some people likes looking at, not only science book but also novel and On Geopolitics: Space, Place, and International Relations (On Politics) as well as others sources were given expertise for you. After you know how the truly amazing a book, you feel would like to read more and more. Science publication was created for teacher or maybe students especially. Those textbooks are helping them to bring their knowledge. In various other case, beside science publication, any other book likes On Geopolitics: Space, Place, and International Relations (On Politics) to make your spare time more colorful. Many types of book like this one.

### **William Chestnut:**

As a college student exactly feel bored to help reading. If their teacher inquired them to go to the library or to make summary for some e-book, they are complained. Just very little students that has reading's heart or real their pastime. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that looking at is not important, boring and can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this On Geopolitics: Space, Place, and International Relations (On Politics) can make you truly feel more interested to read.
