## Editorial Review

### Amazon.com Review

Roy Eberhardt is the new kid--again. This time around it's Trace Middle School in humid Coconut Grove, Florida. But it's still the same old routine: table by himself at lunch, no real friends, and thick-headed bullies like Dana Matherson pushing him around. But if it wasn't for Dana Matherson mashing his face against the school bus window that one day, he might never have seen the tow-headed running boy. And if he had never seen the running boy, he might never have met tall, tough, bully-beating Beatrice. And if he had never met Beatrice, he might never have discovered the burrowing owls living in the lot on the corner of East Oriole Avenue. And if he had never discovered the owls, he probably would have missed out on the adventure of a lifetime. Apparently, bullies do serve a greater purpose in the scope of the universe. Because if it wasn't for Dana Matherson...

In his first novel for a younger audience, Carl Hiaasen (*Basket Case*, etc.) plunges readers right into the middle of an ecological mystery, made up of endangered miniature owls, the Mother Paula's All-American Pancake House scheduled to be built over their burrows, and the owls' unlikely allies--three middle school kids determined to beat the screwed-up adult system. Hiaasen's tongue is firmly in cheek as he successfully cuts his slapstick sense of humor down to kid-size. Sure to be a hoot, er, hit with middle school mystery fans. (Ages 10 to 15) --*Jennifer Hubert*

### From Publishers Weekly

With a Florida setting and proenvironment, antidevelopment message, Hiaasen (*Sick Puppy*) returns to familiar turf for his first novel for young readers. Characteristically quirky characters and comic twists will surely gain the author new fans, though their attention may wander during his narrative's intermittently protracted focus on several adults, among them a policeman and the manager of a construction site for a new franchise of a pancake restaurant chain. Both men are on a quest to discover who is sabotaging the site at night, including such pranks as uprooting survey stakes, spray-painting the police cruiser's windows while the officer sleeps within and filling the portable potties with alligators. The story's most intriguing character is the boy behind the mischief, a runaway on a mission to protect the miniature owls that live in burrows underneath the site. Roy, who has recently moved to Florida from Montana, befriends the homeless boy (nicknamed Mullet Fingers) and takes up his cause, as does the runaway's stepsister. Though readers will have few doubts about the success of the kids' campaign, several suspenseful scenes build to the denouement involving the sitcom-like unraveling of a muckity-muck at the pancake house. These, along with dollops of humor, help make the novel quite a hoot indeed. Ages 10-up.

### From School Library Journal

Grade 6-9-This is novelist Carl Hiaasen's first book for young readers (Knopf, 2002). Set in Florida, an intriguing barefoot runner reminiscent in his innocence of Maniac Magee leads middle school student Roy Eberhardt on an eco-adventure that includes snakes, fish, alligators, a student protest movement, and encounters with big business and law enforcement--all in defense of a nesting site for burrowing owls. This barefoot runner remains fairly enigmatic throughout the story, never truly becoming part of the ordinary world of home, school, and community that newcomer Roy finds so limited after having experienced the majestic Montana mountains. But Roy grows to appreciate Florida by experiencing it through contact with this elusive friend whom he helps to accomplish the seemingly impossible. An interesting cast of adult and student characters is brought to life by actor Chad Lowe who uses his voice deftly to express each in clearly discernible ways. His reading is especially well-paced to assist in following and understanding the changes

of setting and characters as the plot moves along in two different sequences for quite some time. It's an appealing story focusing on ecological values, giving it nice classroom potential for science tie-ins. It would also make a great book for family listening because of its timely story line, interesting animal details, lots of local color, and effective message.
