Editorial Review

Review

"Donnelly (Univ. of Denver) delivers a compact but encyclopedic treatment of a standard theme in the study of theories of international relations--realism, commonly referred to as power politics..with flair Donnelly provides a meta-analysis of a most important analytic approach to international relations...Absolutely essential for upper-division undergraduates and graduate students." Choice

Reviewed with David P. Forsythe's book Human Rights in International Relations: " The authors' skill and influence in the study of international relations, international theory, and human rights are indisputably relevant. Both volumes offer scholarship that is of great value to activists, academics, and policymakers with an interest in issues no less important than power on the world stage." Human Rights Quarterly
