Risk and Crisis Management in the Public Sector (Routledge Masters in Public Management) By Lynn T Drennan, Allan McConnell, Alastair Stark

Every decision that is made by managers and policy-makers in a public sector organization requires an evaluation and a judgement of the risks involved. This vital requirement has been recognised in the growth of risk management. However, risks can never be fully prevented, which means that public managers also have to be crisis managers.

Today's crises develop in unseen ways; they escalate rapidly and transform through the interdependencies of modern society, and their frequency is growing: the global financial crisis, the European volcanic ash cloud, the Japanese tsunami and subsequent Fukushima nuclear plant meltdown, the Christchurch earthquake and the Queensland floods. All highlight the extreme challenges that public sector organizations across the world have had to face in recent years.

Risk and Crisis Management in the Public Sector Second Edition responds to these challenges by presenting the only guide for public managers and public management students which combines lessons about risk *and* crisis management together in a single, accessible text. It equips readers and public managers with the knowledge and skills to understand key issues and debates, as well as the capacity to treat risks and better prepare for, respond to and recover from crisis episodes.

This exciting new edition enhances the original text with contemporary cases and a greater focus on the international, trans-boundary and multi-agency dimensions of risk and crisis management. These enhancements reflect the fact that today's public manager must increasingly operate within a global and interdependent governance context.

Editorial Review

Review

‘The revision of this helpful textbook confirms the validity of the ideas underpinning the first edition: to provide an integrated and sophisticated, yet succinct and highly teachable overview of the theory and practice of contemporary risk management and crisis management. These fields address different sides of the safety, security and business continuity coin. This book does a great job of allowing readers to see the connections between the challenges of identifying risks and preventing them from materializing on the one hand, and dealing with the consequences of risks that materialize and escalate in the form of major disruptions and emergencies on the other. It will be of great value to students, scholars, and practitioners alike in both in the corporate and public sectors.’ - Paul ‘t Hart, Utrecht University School of Governance, The Netherlands

“Nothing sells risk management like a crisis.” Unfortunately, interest AFTER a crisis demonstrates bad timing. Further, passions (and political will) for future preparedness subside over time, and an all too common cycle emerges-Crisis/A Vow to Change/Weakening of the Vow/Next Crisis! This book provides expert guidance both on breaking that cycle and on constructing and implementing effective crisis response strategies and methods. It should be required reading for public leaders and managers.’ - Peter C. Young, PhD, 3M Endowed Chair in International Business, University of St. Thomas-Opus College of Business Minneapolis, Minnesota, USA

The reserve untitled Risk and Crisis Management in the Public Sector (Routledge Masters in Public Management) is the publication that recommended to you you just read. You can see the quality of the book content that will be shown to a person. The language that writer use to explained their ideas are easily to understand. The article writer was did a lot of investigation when write the book, to ensure the information that they share for you is absolutely accurate. You also could possibly get the e-book of Risk and Crisis Management in the Public Sector (Routledge Masters in Public Management) from the publisher to make you a lot more enjoy free time.

Debra Weeks:

As a pupil exactly feel bored to be able to reading. If their teacher expected them to go to the library or even make summary for some e-book, they are complained. Just tiny students that has reading's heart or real their passion. They just do what the educator want, like asked to the library. They go to right now there but nothing reading really. Any students feel that looking at is not important, boring and can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Risk and Crisis Management in the Public Sector (Routledge Masters in Public Management) can make you really feel more interested to read.
