Among the Truthers: A Journey Through America's Growing Conspiracist Underground By Jonathan Kay

From 9/11 conspiracy theorists and UFO obsessives to the cult of Ayn Rand and Birther crusaders, America is suffering from an explosion in post-rationalist ideological movements. In *Among the Truthers*, journalist Jonathan Kay offers a thoughtful and sobering look at how social networking and Web-based video sharing have engendered a flourishing of new conspiracism. Kay details the sociological profiles of ten brands of modern conspiracists—the Failed Historian, the Mid-Life Crack-Up, the Damaged Survivor, the Campus Revolutionary, the Stoner, the Clinical Case, the Puzzle Solver, the Christian Doomsayer, the Cosmic Voyager, and the Egomaniac—in a compelling exploration of America's departure from reason and what it means for the very future of rational discourse as the nation steps further into the 21st century.

Editorial Review

Review

“A well-researched and provocative account of our most baffling conspiracies.” (Kirkus Reviews)

From the Back Cover

From left-wing 9/11 conspiracy theorists to right-wing Obama-hating "birthers"—a sobering, eyewitness look at how America's marketplace of ideas is fracturing into a multitude of tiny, radicalized boutiques—each peddling its own brand of paranoia

Throughout most of our nation's history, the United States has been bound together by a shared worldview. But the 9/11 terrorist attacks opened a rift in the collective national psyche: Increasingly, Americans are abandoning reality and retreating to Internet-based fantasy worlds conjured into existence out of our own fears and prejudices.

The most disturbing symptom of this trend is the 9/11 Truth movement, whose members believe that Bush administration officials engineered the September 11, 2001, terrorist attacks as a pretext to launch wars in Afghanistan and Iraq. But these "Truthers" are merely one segment of a vast conspiracist subculture that includes many other groups: anti-Obama extremists who believe their president is actually a foreign-born Manchurian Candidate seeking to destroy the United States from within; radical alternative-medicine advocates who claim that vaccine makers and mainstream doctors are conspiring to kill large swathes of humanity; financial neo-populists who have adapted the angry message of their nineteenth-century forebears to the age of Twitter; Holocaust deniers; fluoride phobics; obsessive Islamophobes; and more.

For two years journalist Jonathan Kay immersed himself in this dark subculture, attending conventions of conspiracy theorists, surfing their discussion boards, reading their websites, joining their Facebook groups, and interviewing them in their homes and offices. He discovered that while many of their theories may seem harmlessly bizarre, their proliferation has done real damage to the sense of shared reality that we rely on as a society. Kay also offers concrete steps that intelligent, culturally engaged Americans can take to reject conspiracism and help regain control of the intellectual landscape.

About the Author

JONATHAN KAY is a managing editor, columnist and blogger at Canada's *National Post* newspaper. His freelance articles have appeared in such publications as *The New Yorker*, *The New York Times*, *Harper's*, *Commentary* magazine, *Salon*, *Reader's Digest* and *Newsweek*. He is a visiting fellow at the Foundation for Defense of Democracies in Washington, D.C. His first book, *The Volunteer*, co-authored with Michael Ross, became a top-ten bestseller in 2007.

Users Review

From reader reviews:

Margaret Morales:
