### **Editorial Review**

#### Review

Review from previous edition: "Doctors who are not specialists in haematology will find this an excellent summary of the main approaches to the diagnosis and management of the blood diseases commonly encountered in clinical practice."

--Aslib Book Guide

#### About the Author

Drew Provan is currently Reader in Autoimmune Haematology at Barts and The London School of Medicine and Dentistry. Dr. Provan studied molecular genetics at Leicester University before studying medicine. Dr. Provan took up the post of Consultant Haematologist in Southampton in 1995, and moved to Barts and The London in 2000. As a general haematologist, his main area of interest within the field of haematology is immunohaematology which includes diseases such as autoimmune thrombocytopenia (ITP), neutropenia and haemolytic anaemia. Dr. Provan has established the UK ITP Registry ([www.ukitpregistry.com](http://www.ukitpregistry.com)) and has recently published the Consensus guidelines for the diagnosis and management of ITP in children and adults published in *Blood*. He has written numerous peer-reviewed papers, book chapters, and has authored several medical books including *Oxford Handbook of Clinical and Laboratory Investigation*. Inderjeet Dokal graduated in Medicine from the University of Leicester in 1983. He moved to Hammersmith Hospital in 1984 where he received his post graduate clinical and research training. He was appointed Consultant in Paediatric Haematology in 1995 and was conferred the title of Professor of Haematology at Imperial College in 2003. In 2006 he was recruited to the Chair of Child Health at Barts and The London/Queen Mary University of London. Inderjeet Dokal's principal clinical and research interest is the in the field of bone marrow failure. After graduation summa cum laude from the Catholic University of Leuven, Belgium, Dr de Vos has worked in Belgium and the Netherlands before moving to the United Kingdom in 2004. After completing his higher medical training in Haematology and becoming a Fellow of the Royal College of Pathologists he worked as a Haemato-Oncology consultant at St Bartholomew's Hospital in London, United Kingdom, before moving to the Royal Surrey County Hospital in Guildford, UK. With a broad interest in all aspects of haematology he is truly 'malignant at heart'. A true clinician Dr de Vos spends almost all his time at the bedside talking to and treating his patients. As a keen teacher he is keen to inspire and pass on in all his junior doctors and students a small part of what inspired him as a student about the incredible world of haematology.
