Editorial Review

About the Author

Jay Devore is Professor Emeritus of Statistics at California Polytechnic State University. He earned his undergraduate degree in Engineering Science from the University of California at Berkeley, spent a year at the University of Sheffield in England, and finished his Ph.D. in statistics at Stanford University. Jay previously taught at the University of Florida and at Oberlin College and has had visiting appointments at Stanford, Harvard, the University of Washington, New York University, and Columbia University. From 1998 to 2006, he served as Chair of the Statistics Department. In addition to this book, Jay has written several widely used engineering statistics texts and a book in applied mathematical statistics. He recently coauthored a text in probability and stochastic processes. He is the recipient of a distinguished teaching award from Cal Poly, is a Fellow of the American Statistical Association, and has served several terms as an Associate Editor of the "Journal of the American Statistical Association." In his spare time, he enjoys reading, cooking and eating good food, tennis, and travel to faraway places. He is especially proud of his wife, Carol, a retired elementary school teacher, his daughter Allison, who has held several high-level positions in nonprofit organizations in Boston and New York City, and his daughter Teresa, an ESL teacher in New York City.

Ken Berk has a BS in Physics from Carnegie Tech (now Carnegie Mellon) and a PhD in Mathematics from Minnesota. He is Professor Emeritus of Mathematics at Illinois State University and a Fellow of the American Statistical Association. He founded the Software Reviews section of The American Statistician and edited it for six years. He served as Secretary/Treasurer, Program Chair, and Chair of the Statistical Computing Section of the American Statistical Association, and he twice co-chaired the Interface Symposium, the main annual meeting in statistical computing. His published work includes papers on time series, statistical computing, regression analysis, and statistical graphics and the book Data Analysis with Microsoft Excel (with Patrick Carey).

Users Review

From reader reviews:

Jay Burke:

Student Solutions Manual for Devore/Berk's Modern Mathematical Statistics with Applications can be one of your nice books that are good idea. Many of us recommend that straight away because this guide has good vocabulary that could increase your knowledge in language, easy to understand, bit entertaining but still delivering the information. The author giving his/her effort that will put every word into satisfaction arrangement in writing Student Solutions Manual for Devore/Berk's Modern Mathematical Statistics with Applications yet doesn't forget the main level, giving the reader the hottest and based confirm resource info that maybe you can be one of it. This great information may drawn you into brand new stage of crucial considering.

Lois Maestas:

This Student Solutions Manual for Devore/Berk's Modern Mathematical Statistics with Applications is great

publication for you because the content and that is full of information for you who have always deal with world and possess to make decision every minute. This particular book reveal it facts accurately using great plan word or we can say no rambling sentences included. So if you are read the idea hurriedly you can have whole facts in it. Doesn't mean it only gives you straight forward sentences but tricky core information with attractive delivering sentences. Having Student Solutions Manual for Devore/Berk's Modern Mathematical Statistics with Applications in your hand like finding the world in your arm, data in it is not ridiculous one particular. We can say that no book that offer you world in ten or fifteen small right but this publication already do that. So , this is good reading book. Hey Mr. and Mrs. hectic do you still doubt in which?

Michael Greene:

As we know that book is vital thing to add our knowledge for everything. By a publication we can know everything we really wish for. A book is a range of written, printed, illustrated as well as blank sheet. Every year has been exactly added. This publication Student Solutions Manual for Devore/Berk's Modern Mathematical Statistics with Applications was filled about science. Spend your extra time to add your knowledge about your science competence. Some people has diverse feel when they reading a new book. If you know how big good thing about a book, you can sense enjoy to read a reserve. In the modern era like currently, many ways to get book which you wanted.

Walter Harman:

Reserve is one of source of understanding. We can add our expertise from it. Not only for students but in addition native or citizen will need book to know the change information of year to be able to year. As we know those textbooks have many advantages. Beside we add our knowledge, could also bring us to around the world. From the book Student Solutions Manual for Devore/Berk's Modern Mathematical Statistics with Applications we can have more advantage. Don't one to be creative people? To get creative person must choose to read a book. Only choose the best book that ideal with your aim. Don't become doubt to change your life with that book Student Solutions Manual for Devore/Berk's Modern Mathematical Statistics with Applications. You can more attractive than now.
