Designing with Models: A Studio Guide to Architectural Process Models By Criss B. Mills

The newly updated guide to design process modeling techniques

Designing with Models, Third Edition is the revised, step-by-step guide to basic and advanced design process modeling. This comprehensive text explains the process from start to finish, and has been expanded to include up-to-date information on digital modeling programs and rapid prototyping processes. The impact of this new wave of 3D modeling technology is examined through interviews and numerous examples from renowned architects. Along with many new student projects, this new Third Edition features information on cutting-edge digital imaging equipment and design software, as well as many new process models from celebrated professional projects.

Architect Criss Mills acquaints architecture and design professionals with essential modeling terms, design processes, equipment, materials, and construction methods. Fully updated with nearly 200 new photos and twenty-six new projects from students and firms, Designing with Models, Third Edition walks readers through the basics of:

- Material and tool selection
- Construction techniques
- Determining scale
- Generating ideas
- Exploring design processes and alternatives
- Modifying design work directly on the model
- Developing design work through modeling scale

Offering increased emphasis on transitioning from hand craft to digital craft, this thorough Third Edition also provides easy-to-follow guidelines for modeling with advanced tools and materials, demonstrating how to:

- Master the modeling of curvilinear components with planar material and casting techniques
- Explore ideas with mixed media, such as wood, found objects, metal rods and

screens, clay, and Plexiglas

- Work backwards from model information to produce 2D plan, section, and elevation drawings
- Record and communicate 3D design work
- Begin exploring the safe and effective use of power tools, such as belt sanders, table saws, drills, band saws, and welding equipment

Editorial Review

About the Author

CRISS B. MILLS holds a degree in architecture from the Georgia Institute of Technology, as well as a degree in visual arts from Georgia State University. A registered architect in Georgia and Florida, he is principal of his own architecture firm and teaches architecture at Clemson University.

Users Review

From reader reviews:

Katherine Anderson:

Book is actually written, printed, or outlined for everything. You can understand everything you want by a e-book. Book has a different type. As it is known to us that book is important factor to bring us around the world. Next to that you can your reading proficiency was fluently. A reserve Designing with Models: A Studio Guide to Architectural Process Models will make you to always be smarter. You can feel considerably more confidence if you can know about everything. But some of you think in which open or reading some sort of book make you bored. It is not necessarily make you fun. Why they might be thought like that? Have you trying to find best book or acceptable book with you?

Kenneth Williams:

What do you regarding book? It is not important along with you? Or just adding material if you want something to explain what your own problem? How about your time? Or are you busy man or woman? If you don't have spare time to try and do others business, it is make one feel bored faster. And you have free time? What did you do? Everybody has many questions above. They have to answer that question due to the fact just their can do this. It said that about guide. Book is familiar in each person. Yes, it is right. Because start from on pre-school until university need that Designing with Models: A Studio Guide to Architectural Process Models to read.

Duane Coley:

In this 21st century, people become competitive in every way. By being competitive right now, people have do something to make them survives, being in the middle of often the crowded place and notice through surrounding. One thing that occasionally many people have underestimated this for a while is reading. That's why, by reading a reserve your ability to survive improve then having chance to stay than other is high. To suit your needs who want to start reading some sort of book, we give you that Designing with Models: A Studio Guide to Architectural Process Models book as beginner and daily reading guide. Why, because this book is more than just a book.

Robert Ford:

Playing with family within a park, coming to see the coastal world or hanging out with good friends is thing that usually you will have done when you have spare time, then why you don't try factor that really opposite from that. 1 activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Designing with Models: A Studio Guide to Architectural Process Models, you are able to enjoy both. It is excellent combination right, you still wish to miss it? What kind of hang-out type is it? Oh come on its mind hangout fellas. What? Still don't buy it, oh come on its identified as reading friends.
