Manufacturing Facilities Design & Material Handling (4th Edition) By Matthew P. Stephens Ph.D., Fred E. Meyers

Using a hands-on approach, the fourth edition of *Manufacturing Facilities Design and Material Handling* connects theoretical concepts of plant layout and design to real-life experiences students will face in the field. Following select chapters, “Project in the Making” is an ongoing case study that allows students to see how their knowledge is put to use in the design of an actual manufacturing facility. The revised fourth edition contains a new look at the increased importance of energy costs, transportation, and plant location on facilities planning today.
