Aristotle: The Desire to Understand By Jonathan Lear

This is a philosophical introduction to Aristotle, and Professor Lear starts where Aristotle himself started. He introduces us to the essence of Aristotle's philosophy and guides us through all the central Aristotelian texts--selected from the Physics, Metaphysics, Ethics, Politics and the biological and logical works. The book is written in a direct, lucid style that engages the reader with the themes in an active and participatory manner. It will prove a stimulating introduction for all students of Greek philosophy and for a wide range of others interested in Aristotle as a giant figure in Western intellectual history.

Editorial Review

Users Review

From reader reviews:

Edith Macklin:

In this 21st hundred years, people become competitive in each way. By being competitive at this point, people have do something to make all of them survives, being in the middle of the particular crowded place and notice by simply surrounding. One thing that at times many people have underestimated the item for a while is reading. Yep, by reading a book your ability to survive increase then having chance to stand up than other is high. For you who want to start reading a book, we give you this Aristotle: The Desire to Understand book as basic and daily reading reserve. Why, because this book is more than just a book.

David Dozier:

Information is provisions for those to get better life, information nowadays can get by anyone in everywhere. The information can be a understanding or any news even an issue. What people must be consider whenever those information which is inside former life are challenging be find than now is taking seriously which one is acceptable to believe or which one typically the resource are convinced. If you get the unstable resource then you obtain it as your main information we will see huge disadvantage for you. All those possibilities will not happen in you if you take Aristotle: The Desire to Understand as the daily resource information.

Paul Kennedy:

Often the book Aristotle: The Desire to Understand has a lot associated with on it. So when you read this book you can get a lot of profit. The book was compiled by the very famous author. The writer makes some research ahead of write this book. This specific book very easy to read you can get the point easily after scanning this book.

Diane Dockins:

Do you like reading a book? Confuse to looking for your selected book? Or your book has been rare? Why so many question for the book? But just about any people feel that they enjoy for reading. Some people likes reading through, not only science book but also novel and Aristotle: The Desire to Understand or perhaps others sources were given information for you. After you know how the truly amazing a book, you feel wish to read more and more. Science publication was created for teacher or perhaps students especially. Those textbooks are helping them to put their knowledge. In some other case, beside science publication, any other book likes Aristotle: The Desire to Understand to make your spare time far more colorful. Many types of book like this one.
