Editorial Review

Review

"[A]n incredible collection of 300 works of small-scale architecture." —*msn*

"[T]his delightful volume... is a study in design that can best be described as compact, wee, diminutive, shoebox-sized, impossibly cramped, and big on imagination. [Goes] way beyond the once-fringe/now-trendy tiny house movement." —*Mother Nature Network*

"The words Roke uses to describe small-scale architecture can also be used for the book she has produced: 'inspiring, surprising and delightful'." —*ArchitectsJournal*

"300 intriguing small-scale works, from pavilions, installations and cabins to colourful homes for cats, dogs and even bees." —*Elle Decoration*

" [T]here's a little genius behind all these little buildings... *Nanotecture: Tiny Built Things* celebrates a wide range of designs, and shows good things certainly do come in small packages." —*Cool Hunting*

"[A] thorough exploration of small-scale architecture." —*Vice's The Creators Project*

"Tiny architecture is design's unsung hero" —*City A.M.*

"Surprising and intriguing... This is architecture at the cutting edge." —*Rolls Royce Magazine*

"Inspiring... wide-ranging, comprehensive and inclusive" —*Askmen.com*

"Quirky and surprising structures." —*BBC Focus*

"Small in scale but huge in imagination, these tiny constructions celebrate the joy of nanotecture" —*The Observer Magazine*

"*Nanotecture: Tiny Built Things*, a new book filled with pint-sized architectural projects, shows just how much you can do with a tiny footprint." —*Mental Floss*

"You'll find it pretty nifty." —*UrbanDaddy*

"Celebrates the appeal and ingenuity of small-scale architecture" —*Architectural Digest*

"Everything is small in size, big in impact" —*BA High Life*

"Miniature marvels... all prove that modesty is no barrier to creativity." —*Conde Nast Traveller*

"Nanotecture is an ode to spatial efficiency." —*Co.Design*

"[A] truly entertaining look at some of the best small and compact architectural creations you can find today." —*CoolThings.com*

"This illuminating book will open your eyes to the world on a small scale." —*Homes & Interiors Scotland*

"There are so many grand projects and big name architects... it's so nice to see something that's done on a small scale." —*Monocle Radio*

"Spend time... with Rebecca Roke's *Nanotecture: Tiny Built Things*, and you see how the small-is-beautiful ethos is also about spiritual improvement, mindfulness and a better relationship to the social and natural world." —*The Washington Post Online*

About the Author

Rebecca Roke has contributed to more than 350 published works about architecture and design, drawing on her architectural background and extensive experience writing, editing, researching and teaching. She has written widely about the work of leading practitioners, such as Ronan and Erwan Bouroullec, Thomas Heatherwick, Rem Koolhaas and Hella Jongerius. Rebecca was editor of *Monument* magazine in Australia and for Foster + Partners in London, and was the London Correspondent for *Inside Interior Review*. Roke is based in London and *Nanotecture* is her first book.

Users Review

From reader reviews:

Charles Davis:

Here thing why this particular Nanotecture: Tiny Built Things are different and trusted to be yours. First of all looking at a book is good nonetheless it depends in the content from it which is the content is as delightful as food or not. Nanotecture: Tiny Built Things giving you information deeper including different ways, you can find any reserve out there but there is no reserve that similar with Nanotecture: Tiny Built Things. It gives you thrill examining journey, its open up your eyes about the thing that will happened in the world which is probably can be happened around you. It is easy to bring everywhere like in recreation area, café, or even in your method home by train. In case you are having difficulties in bringing the branded book maybe the form of Nanotecture: Tiny Built Things in e-book can be your option.

Arthur Coe:

The book Nanotecture: Tiny Built Things will bring you to definitely the new experience of reading any book. The author style to spell out the idea is very unique. Should you try to find new book to see, this book very suitable to you. The book Nanotecture: Tiny Built Things is much recommended to you to learn. You can also get the e-book through the official web site, so you can quicker to read the book.

Meredith Butler:

Are you kind of stressful person, only have 10 or maybe 15 minute in your day to upgrading your mind expertise or thinking skill perhaps analytical thinking? Then you are receiving problem with the book compared to can satisfy your short period of time to read it because this time you only find book that need more time to be learn. Nanotecture: Tiny Built Things can be your answer given it can be read by you actually who have those short extra time problems.

Darlene Gutierrez:

As a pupil exactly feel bored to help reading. If their teacher questioned them to go to the library as well as to make summary for some publication, they are complained. Just small students that has reading's internal or real their passion. They just do what the professor want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that looking at is not important, boring and also can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this Nanotecture: Tiny Built Things can make you experience more interested to read.
