### 9-11: Was There an Alternative? (Open Media Books) By Noam Chomsky

In 9-11, published in November 2001 and arguably the single most influential post 9-11 book, internationally renowned thinker Noam Chomsky bridged the information gap around the World Trade Center attacks, cutting through the tangle of political opportunism, expedient patriotism, and general conformity that choked off American discourse in the months immediately following. Chomsky placed the attacks in context, marshaling his deep and nuanced knowledge of American foreign policy to trace the history of American political aggression--in the Middle East and throughout Latin America as well as in Indonesia, in Afghanistan, in India and Pakistan--at the same time warning against America's increasing reliance on military rhetoric and violence in its response to the attacks, and making the critical point that the mainstream media and public intellectuals were failing to make: any escalation of violence as a response to violence will inevitably lead to further, and bloodier, attacks on innocents in America and around the world. This new edition of 9-11, published on the tenth anniversary of the attacks and featuring a new preface by Chomsky, reminds us that today, just as much as ten years ago, information and clarity remain our most valuable tools in the struggle to prevent future violence against the innocent, both at home and abroad.

### Editorial Review

#### Review

- "9-11 was practically the only counter-narrative out there at a time when questions tended to be drowned out by a chorus, led by the entire United States Congress, of 'God Bless America.' . . . it is possible that, if the United States goes the way of nineteenth-century Britain, Chomsky's interpretation will be the standard among historians a hundred years from now." --New Yorker
- "A badly needed corrective to news coverage of the present-day 'war on terrorism.'" --Norman Solomon, San Francisco Chronicle Review
- "Every word of 9-11 is more relevant than ever." --Amnesty International Journal (Ireland)
- "Chomsky laments that the U.S. government largely dismissed these human rights problems in its quest to "secure our interests." The invasion of Afghanistan was far from the first time NATO overran unstable civilian populations in the search for terrorists (Chomsky offers several examples in the book) and, as we now know, it was not the last." --Foreign Policy in Focus

#### About the Author

Born in Philadelphia in 1928, **NOAM CHOMSKY** is known throughout the world for his political writings, activism, and for his groundbreaking work in linguistics. A professor at Massachusetts Institute of Technology since 1955, Chomsky gained recognition in academic circles for his theory of transformational grammar, which drew attention to the syntactic universality of all human languages. But it is as a critic of unending war, corporate control and neoliberalism that Chomsky has become one of the country's most well known public intellectuals. The 1969 publication of *American Power and the New Mandarins* marked the beginning of Chomsky's rigorous public criticism of American hegemony and its lieges. Since then, with his tireless scholarship and an unflagging sense of moral responsibility, he has become one of the most influential writers in the world. Chomsky is the author of *Manufacturing Consent: The Political Economy of the Mass Media* (with Edward S. Herman), *Profit Over People: Neoliberalism and Global Order*, and over one hundred other books. To this day Noam Chomsky remains an active and uncompromising voice of dissent.

### Users Review

#### From reader reviews:

##### Arthur Elsberry:

As people who live in the actual modest era should be change about what going on or information even knowledge to make these people keep up with the era that is always change and move ahead. Some of you maybe will update themselves by looking at books. It is a good choice to suit your needs but the problems coming to you is you don't know which you should start with. This 9-11: Was There an Alternative? (Open Media Books) is our recommendation so you keep up with the world. Why, as this book serves what you want and want in this era.

**Michelle Porter:**
