**A First Course in Statistics (12th Edition)** By James T. McClave, Terry T Sincich

*For courses in introductory statistics.*

## **A Contemporary Classic**

Classic, yet contemporary; theoretical, yet applied—McClave & Sincich’s **A First Course in Statistics** gives you the best of both worlds. This text offers a trusted, comprehensive introduction to statistics that emphasizes inference and integrates real data throughout. The authors stress the development of statistical thinking, the assessment of credibility, and value of the inferences made from data. This new edition is extensively revised with an eye on clearer, more concise language throughout the text and in the exercises.

Ideal for one- or two-semester courses in introductory statistics, this text assumes a mathematical background of basic algebra. Flexibility is built in for instructors who teach a more advanced course, with optional footnotes about calculus and the underlying theory.

## **Also available with MyStatLab**

MyStatLab™ is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. For this edition, MyStatLab offers 30% new and updated exercises.

**Note:** You are purchasing a standalone product; MyLab™ & Mastering™ does not come packaged with this content.
