Free Will and Reactive Attitudes: Perspectives on P.F. Strawson's 'Freedom and Resentment' By Michael S. McKenna, Paul Russell

The philosophical debate about free will and responsibility has been of great importance throughout the history of philosophy. In modern times this debate has received an enormous resurgence of interest and the contribution in 1962 by P.F. Strawson with the publication of his essay "Freedom and Resentment" has generated a wide range of discussion and criticism in the philosophical community and beyond. The debate is of central importance to recent developments in the free will literature and has shaped the way contemporary philosophers now approach the problem. This volume brings together a focused selection of the major contributions and reactions to the free will and responsibility debate inspired by Strawson's contribution. McKenna and Russell also provide a comprehensive overview of the debate. This book will be of great value to scholars of Strawson and those interested in the free will debate more generally.

Editorial Review

Review

'This is an outstanding collection. P.F. Strawson's 'Freedom and Resentment' is one of the most important and influential papers in the debates about free will and moral responsibility. It is thus very helpful to have Strawson's paper published together with an excellent set of papers that treat central issues in it. The editors have done a superb job of bringing this material together, and they have provided a clear and helpful introductory essay. This will become an essential book for both scholars and students.'

John M. Fischer, University of California Riverside, USA

'In addition to a considerable amount of new material, this collection of essays contains some of the most important articles published in reaction to P. F. Strawson's renowned paper 'Freedom and Resentment'... a must for all readers of Strawson, but also for those who want a reliable guide to study 'Freedom and Resentment' and enhance their understanding of the significance of our reactive attitudes and the relationship between emotions and morality in general.' --Ethical Perspectives
