### Truth: Philosophy in Transit By John D Caputo

In the first in a new series of easily digestible, commute-lengthbooks of original philosophy, renowned thinker John D. Caputo explores the many notions of 'truth', and what it really means. Riding to work in the morning has become commonplace. We ride everywhere. Physicians and public health officials plead with us to get out and walk, to get some exercise. People used to live within walking distance to the fields in which they worked, or they worked in shops attached to their homes. Now we ride to work, and nearly everywhere else. Which may seem an innocent enough point, and certainly not one on which we require instruction from the philosophers. But, truth be told, it has in fact precipitated a crisis in our understanding of truth. Arguing that our transportation technologies are not merely transient phenomena but the vehicle for an important metaphor about postmodernism, or even constitutive of postmodernism, John D. Caputo explores the problems posed by the way in which science, ethics, politics, art and religion all claim to offer us (the) "truth", defending throughout a "postmodern", or "hermeneutic" theory of truth, and posits his own surprising theory of the many notions of truth. John D. Caputo is a specialist in contemporary hermeneutics and deconstruction with a special interest in religion in the postmodern condition. The Thomas J. Watson Professor of Religion Emeritus at Syracuse University and the David R. Cook Professor of Philosophy Emeritus at Villanova University, he has spearheaded an idea he calls weak theology.

## **Editorial Review**

### **Review**

Caputo's entertaining investigation into the nature of truth ... sets out his case confidently, enlisting Nietzsche, Kierkegaard and Derrida as his allies. (His explanation of Derrida's thought is one of the clearest that I've read.) ... The starting point for a more sophisticated discussion -- David Wolf Prospect Caputo has done a fine job of clarifying and classifying the postmodernist approach to truth and reality. His readable and eloquent book is an excellent guide to the outlook common in a certain strain of Continental European philosophy The Times Literary Supplement
