Business Process Driven SOA using BPMN and BPEL By Matjaz B. Juric, Kapil Pant

The book provides a well-balanced mixture of theoretical discussion and real-world examples. It explains the concepts and approaches, and describes methodology and notation. It demonstrates these concepts on real-world examples and provides a step-by-step example tutorial that guides readers from business process modeling in BPMN through transformation into BPEL to execution on the SOA process server. It also discusses some key concepts using practical examples and business scenarios around Business Rules Management and Business Activity Monitoring with BPM and SOA. This book is for CIOs, executives, SOA project managers, business process analysts, BPM and SOA architects, who are responsible for improving the efficiency of business processes through IT, or for designing SOA. It provides a high-level coverage of business process modeling, but it also gives practical development examples on how to move from model to execution. We expect the readers to be familiar with the basics of SOA.

Editorial Review

About the Author

Kapil Pant is an accomplished BPM consultant and Public speaker with extensive experience in Products and Professional Services consulting. He currently manages Wipro Technologies' BPM/SOA practice in Europe, and leads consulting engagements including Business Process Improvement workshops, BPMS and SOA Tools Study & Recommendations, and BPM Architecture, Implementation & Governance. Over the years, Kapil has been extensively involved in conducting successful workshops on Process Improvement, Requirements Analysis, BPM/SOA and Enterprise Architecture for clients in Telecom, Banking, Securities and Insurance industry verticals. He has also worked closely with leading System Integrators such as Wipro, Tata Consulting, HCL and Satyam to conduct technology enablement programs for client projects across industry verticals. As a recognized Public Speaker, Kapil is known for his well-researched programs delivered in his high-energy, enthusiastic, and down-to-earth style. He has presented keynote speeches, workshops, seminars and over 40 road-shows across the Asia Pacific, Europe and the USA. He was also nominated by the Government of India to lead seminars as a part of a 25-member working committee for E-Governance Enterprise Architecture and Standards Taxonomy. He has a Masters Degree in Computer Applications, a Bachelors Degree in Business Studies, and a TOGAF Certification. Kapil presently lives in Hampshire, UK with his wife and enjoys blogging in his free time. Matjaz B. Juric holds a Ph.D. in computer and information science. He is Associate Professor at the University of Maribor. In addition to this book, he has coauthored Professional J2EE EAI, Professional EJB, J2EE Design Patterns Applied, and the .NET Serialization Handbook, published by Wrox Press. He has published chapters in More Java Gems (Cambridge University Press) and in Technology Supporting Business Solutions (Nova Science Publishers). He has also published in journals and magazines, such as Java Developer's Journal, Java Report, Java World, Web Services Journal, eai Journal, theserverside.com, OTN, ACM journals, and presented at conferences such as OOPSLA, Java Development, XML Europe, OOW, SCI, and others. He is a reviewer, program committee member, and conference organizer. Matjaz has been involved in several large-scale object technology projects. In cooperation with IBM Java Technology Centre, he worked on performance analysis and optimization of RMI-IIOP, an integral part of the Java platform. Matjaz is author of courses and consultant for the BPEL and SOA consulting company BPELmentor.com. For more information, please visit <http://www.bpelmentor.com>.

Users Review

From reader reviews:

Gerardo Whittaker:

As people who live in the actual modest era should be revise about what going on or facts even knowledge to make these keep up with the era that is certainly always change and move ahead. Some of you maybe will update themselves by reading through books. It is a good choice for you personally but the problems coming to anyone is you don't know what kind you should start with. This Business Process Driven SOA using BPMN and BPEL is our recommendation to help you keep up with the world. Why, as this book serves what you want and need in this era.

Patrick Lyon:

Nowadays reading books be than want or need but also be a life style. This reading behavior give you lot of advantages. The huge benefits you got of course the knowledge the particular information inside the book this improve your knowledge and information. The info you get based on what kind of guide you read, if you want have more knowledge just go with education books but if you want feel happy read one having theme for entertaining including comic or novel. Typically the Business Process Driven SOA using BPMN and BPEL is kind of e-book which is giving the reader unforeseen experience.

Elliott Townsend:

This Business Process Driven SOA using BPMN and BPEL usually are reliable for you who want to be considered a successful person, why. The key reason why of this Business Process Driven SOA using BPMN and BPEL can be one of many great books you must have will be giving you more than just simple looking at food but feed you actually with information that might be will shock your prior knowledge. This book is actually handy, you can bring it almost everywhere and whenever your conditions at e-book and printed versions. Beside that this Business Process Driven SOA using BPMN and BPEL forcing you to have an enormous of experience for instance rich vocabulary, giving you trial of critical thinking that we understand it useful in your day action. So , let's have it appreciate reading.

Kathryn Hill:

Playing with family in a very park, coming to see the marine world or hanging out with friends is thing that usually you will have done when you have spare time, then why you don't try factor that really opposite from that. One activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Business Process Driven SOA using BPMN and BPEL, you could enjoy both. It is very good combination right, you still wish to miss it? What kind of hang type is it? Oh can occur its mind hangout guys. What? Still don't get it, oh come on its known as reading friends.
