

Windows Scripting Secrets

By Tobias Weltner

Windows Scripting Secrets By Tobias Weltner

The most comprehensive book on the market, Windows Scripting Secrets uncovers the never-before-documented features and hidden system functions that make the new Windows Scripting Host a more powerful tool. The book includes more than 200 ready-to-use scripts, and the CD-ROM contains ready-to-use libraries and examples from the book, as well as numerous scripting tools.

A few of the insights inside include

- * Kick-starting WSH and VBScripts
- * "Kidnapping" and creating COM objects
- * Tweaking your Registry, and monitoring system status
- * Powering up with Kodak Imaging
- * Running a Windows network with ADSI scripts

You can automate almost any system task or enhance your current functionality using the scripting solutions detailed here. From the CD-ROM, sample more than 450 scripts, or try looking for an answer in the fully searchable electronic version of the book.

Users Review

From reader reviews:

Manuel Coury:

The book Windows Scripting Secrets can give more knowledge and also the precise product information about everything you want. So just why must we leave a very important thing like a book Windows Scripting Secrets? Wide variety you have a different opinion about publication. But one aim this book can give many details for us. It is absolutely right. Right now, try to closer with your book. Knowledge or details that you take for that, it is possible to give for each other; it is possible to share all of these. Book Windows Scripting Secrets has simple shape but the truth is know: it has great and big function for you. You can seem the enormous world by wide open and read a guide. So it is very wonderful.

Homer Smith:

People live in this new moment of lifestyle always make an effort to and must have the extra time or they will get large amount of stress from both everyday life and work. So , if we ask do people have extra time, we will say absolutely of course. People is human not just a robot. Then we ask again, what kind of activity do you possess when the spare time coming to anyone of course your answer will certainly unlimited right. Then do you try this one, reading textbooks. It can be your alternative inside spending your spare time, the book you have read will be Windows Scripting Secrets.

Scott Seward:

Your reading 6th sense will not betray a person, why because this Windows Scripting Secrets book written by well-known writer we are excited for well how to make book that could be understand by anyone who also read the book. Written with good manner for you, dripping every ideas and producing skill only for eliminate your current hunger then you still question Windows Scripting Secrets as good book not merely by the cover but also through the content. This is one e-book that can break don't assess book by its cover, so do you still needing another sixth sense to pick this kind of!? Oh come on your reading through sixth sense already said so why you have to listening to an additional sixth sense.

Timothy Reed:

Many people spending their time by playing outside along with friends, fun activity together with family or just watching TV the entire day. You can have new activity to invest your whole day by reading through a book. Ugh, think reading a book can really hard because you have to take the book everywhere? It fine you can have the e-book, delivering everywhere you want in your Touch screen phone. Like Windows Scripting Secrets which is getting the e-book version. So , try out this book? Let's see.
